About This Game

Perspectrum is a 2-D puzzle platformer developed by indie game developer ProudMom Games. Players take the role of the *Tall Stranger*, a being who has awakened with the power to use ancient fountains to change the elements of the world. The stranger must use spirit fragments scattered throughout the various levels to bring the mountain back to life. The game includes an overworld and five dungeons, each introducing it's own unique mechanic to help collect more spirit fragments.

Features

- Switch between four elements - Water, Ice, Lava, and Acid - through various switches and enemies to solve various challenges
- Unique, evocative atmosphere throughout every area
- Conquer five dungeons, each with their own unique mechanic
- Interact with various villagers within the town area and learn their backstories
- Enjoy an original soundtrack composed specifically for this game
- Multiple endings available, depending on the number of spirit fragments the player collects
- Post-ending dungeon challenges including element-specific fragments

-
- Available on Windows, Mac, and Linux
